# GENERAL NOTES

**NOTE:** The building is currently named the Kruger Building but is undergoing a name change to the Langer Medical Building. All new signage intended to label the building should be addressed as the "Langer Medical Building". The building owner reserves the right to modify the exact building name prior to the signs being fabricated.

These schematic drawings represent the design intent for new interior and exterior signage. The signage vendor shall further develop the design of each sign to finalize the exact materials, textures and details.

All site conditions, locations and dimensions must be field-verified by signage vendor prior to final shop drawing approval and fabrication/installation.

All signs shall meet local code requirements for ADA accessibility and land use. Signage vendor to verify all requirements.

Shop drawings shall be provided to JPC Architects and Verdant for review and approval prior to fabrication. Installation shall be scheduled and coordinated with Verdant to ensure minimal impact to existing tenants.
